

**Bert Horner**

---

**Subject:** PCB Flying Probe Board Test Demo

## *The Test Connection, Inc.*

Join us on Tuesday, March 2, 2004, at the Reisterstown, Maryland offices of The Test Connection, Inc. (TTCI). Find out why it's time to embrace the new PCB Flying Probe test technologies that will take you into the future. TTCI will be hosting a technical seminar featuring Digitaltest MTS-500 Condor Flying Probe Test System.

- See the latest innovations in PCB test:
  - The first "Next Generation" Flying Probe test system.
  - The "Active Heads" design of the Condor.
  - Flexible solutions for combined Boundary Scan, ICT and Functional test on the Condor.
- Attend special presentations by Digitaltest's Andreas Keiner and TTCI's Tamer Beshai on a variety of test industry issues.
- Get exclusive demos on the Condor, SITE Software and C-Link Software.
- Case studies of how other industry leaders have used Digitaltest Condor in engineering and production environments.
- **NEW** Condor Flying Probe program development, board testing services and other test services at TTCI.
- Find out about Digitaltest's purchase options to help you step up to the newest technologies.
- Presentations will start at 9:30 AM and will be going through out the day. Lunch will be provided.

To RSVP, please contact Bert Horner at [whorner@ttci.com](mailto:whorner@ttci.com) or by phone 410-526-2800 Ext. 115. Please reply no later than Tuesday 02/24/04.
