TTCI is on the Rise! 2

Other News 2

New Places, New Faces!

Yes! The move is completed! TTCI has moved into our new location in Owings Mills, MD. We are still settling in, but we are up and running strong. Our new facility is 50% larger than our Reisterstown office and at over 7,500 square feet, the new office work areas are more conducive to our business model. We also have ample space to conduct more seminars and demonstrations. Along with easy access from the interstate, our customers and business partners will be able to find TTCI with no problems. We hope to see you at our new office soon!

TTCI's New Office!!

TTCI Welcomes Two New Employees!

David Post joins TTCI as a Senior Test Engineer. David holds a degree in Electrical Engineering from the University of Minnesota. He has over 20 years experience in test engineering, specializing in In-Circuit and Functional Testing. David has worked for various contract manufacturers and OEM's. Most recently he worked for Plexus. David's hobbies include: fishing, woodworking, playing golf and classic cars. You will hear him around the office saying, "Welcome to Funland"! Well, we welcome you, David, to our team.

Matt Barrett joins the TTCI Engineering Support Team. Matt has a degree from the TESST Institute and is pursuing a degree from Grantham University. Matt has 10 years of test engineering support experience. Like David, Matt also has worked for various contract manufacturers and OEM's in the greater Baltimore/Washington area. In his spare time, Matt does some amateur radio, likes to fish and challenges his mind with brain teaser games. Welcome Matt!!

TTCI is on the Rise!!

Sales are up 35% for the first eight months of this year. All key aspects of our business are stronger: Aglient, Teradyne (GenRad) In-Circuit and DigitalTest Flying Probe. The DigitalTest Flying Probe is a fast growing sector of our business. TTCI also has some new products on the horizon. Details about our new products will follow in the upcoming months! Stay tuned!

Other Happenings

President and CEO, Bill Horner recently had some medical procedures performed. He is taking some time off to rest, but he will be back shortly.

Until that time, Bert Horner will be taking care of the day to day operations for The Test Connection, Inc. Bert has a BS degree in Computer Science from the University of Maryland. Bert also has 18 years of experience with TTCI.

Joe Folsom will continue to serve as TTCI's Test Engineering Manager. Joe will oversee all aspects of test engineering projects. He has a BA degree in Mathematics from Johns Hopkins University and has been with The Test Connection for 11 years.
